Teen Portal Access Form

After Hours Pediatrics recognizes that teens have special privacy rights concerning their medical history and records. To ensure this privacy, the records of patients 14 years of age or older will not be visible unless the patient has formally requested portal access.

Teen patients may choose to make their records visible under the parent's portal account (as they are today), or they may choose to have their own portal account with a separate login. Medical records will only be visible on the portal if the patient makes one of these choices.

To make these records visible on the portal, teen patients must fill out the form below. All requests require the signature of the patient. **Parents cannot make this request on behalf of their children.**

Submission Options: Drop-off at any location; Email: portaladmin@ahpeds.com;
Mail: 5904 Holly Ave NE, Albuquerque, NM 87113

I request that my medical records be made visible on the portal through:

*****PLEASE CHECK ONLY ONE OPTION*****

My parent's account

Parent's email address: _____

My own separate account that only I can access

My email address: _____

I would like BOTH an account for myself and one for my parents

Parent's email address: _____

My email address: _____

Teen's Name: _____

Date of Birth: _____

Teen Signature: _____ Date: _____

Requests will not be processed if parent signs or teen's name is typed in signature line
